

RAW

It's all in the details! That is why we offer a complete interior line that complements your luxury canvas lodges. Our Raw interior style is bold and robust, thanks to the solid wood that matches the character of your lodge tents. The combination of wood and industrial elements creates a contemporary look.

Raw is made from solid wood that has been stained to give it a luxurious oak look. This natural finish suits any accommodation, it is both trendy and timeless. The solid wood and its treatment ensure that this interior line is very easy to maintain; small scratches or dents can be carefully polished. Various furniture pieces and accessories combine the steel elements with the mango wood to give Raw a warm and contemporary twist.
